SLIDE 1 · VISION

Kitchen table tonight

SAY: UnStuck means no kid stays stuck at the kitchen table tonight. Right practice in minutes — diagnose, generate, grade, adapt. Grades 4-6.

NOTE: Vision first. Don't dump features.

SLIDE 2 · PROBLEM

Six in ten behind

SAY: Six in ten fourth graders are behind — four in ten proficient. Nationwide + Arizona. One worksheet for 28 kids. Parent at the table has zero plan for the exact gap.

NOTE: Punch = 6/10. Don't drown in stats.

SLIDE 3 · WEDGE

What doesn't exist at 8pm

SAY: Tutors and Khan Academy exist. What's missing is a customized learning journey right now — from this miss to a fresh set tonight. Parents, teachers, and students use this tonight.

NOTE: WHY before HOW. Say Khan Academy.

SLIDE 4 · LOOP

Quiz → Generate → Grade → Adapt

SAY: One adaptive loop — not another worksheet generator. Quiz finds the miss. Generate writes the set. Grade shows what landed. Adapt changes on purpose — then back to Quiz.

NOTE: Don't over-explain parents/teachers inside the loop.

SLIDE 5 · LIVE DEMO ★

~2.5 minutes

SAY: Now a live demo — same skill, wrong answer, next set changes on purpose. Bigger-bottom: 3/8 vs 3/5. Watch Adapt scaffold the next set.

NOTE: One laptop. Phone/UI is the star. Keep momentum.

SLIDE 6 · CLOSE

That's UnStuck

SAY: We personalize practice. We don't diagnose disabilities. Teachers stay in control. Right practice in minutes — kids move forward. That's how we chip away at the six in ten behind — the NAEP gap we opened with. That's UnStuck.

NOTE: Safety + NAEP tie-back. End here if short.

SLIDE 7 · OPTIONAL ONLY

If time leftover

SAY: Same engine — deepen math, then other subjects, teacher clarity, homework snap. Shrink six-in-ten / NAEP at home, then Japan/Singapore TIMSS bar (625 / 593 vs US 535).

NOTE: Never lead with roadmap. Prefer closing the NAEP loop over new country stats.

DEMO GOLD

- Compare Fractions
- Bigger-bottom 3/8 vs 3/5
- Miss → scaffolded next set

LOGISTICS

- One laptop only
- Two people on demo max
- Q&A: stack teammates

TIME CUT

- 1 → 2 → 3 → 5 → 6
- Trim 4 detail
- Drop 7

Order locked from 8/23 runthrough · PR #34

Demo handoff line ready above — use it verbatim if stuck
